School Uniform and Dress Code Policy

Rationale: The Governing Council, school staff and community support the Uniform and Dress Code Policy in place at Clarendon Primary School. The intent of the policy is to provide clear guidelines and expectations for students and families about appropriate attire for school.

The Benefits: A uniform supports a student's sense of identity and connection with the school and their peers. It keeps them easily identifiable which enhances safety of students both at school and outside of school. Appropriate school uniform also supports DfE (Department for Education) protective practices for staff and students. The school uniform, as described below, is functional and practical for the day-to-day activities that children are engaged in through the curriculum at Clarendon Primary School. Appropriate school-wear encourages freedom of movement, active outdoor play and are a child's 'work clothes'. Appropriate levels and layers of clothing are recommended; especially warm clothing in winter to support children's wellness and ability to engage with our curriculum, which often takes children outdoors. School uniform can also lessen pressures on students and families to conform to trends and fashions brought into the school from outside. Appropriate school uniform presents a positive image of Clarendon Primary School and sets a tone of self-respect, inclusion, equity, strong identity, engagement and connection to Clarendon. The dress code provides for official school uniform items to be worn, along with items that comply with the colour code of navy and light blue and meet the dress code descriptions below. Exemptions to the uniform policy need to be approved via a written request to the Principal. The school Governing Council and staff require and expect children to comply with this policy.

Naming: Please ensure all items of property belonging to your child are clearly named. We recommend labelling with a family name so items can be handed down when older siblings outgrow them.

Clothing Safety: Where possible, avoid drawstrings, functional or decorative cords on clothing, or remove them from clothing. This reduces entrapment and choking hazards. Ensure hats with chin straps/cords have their quick release mechanisms working.
